
As an affirming, inclusive artistic community, **Sidewalk Sideshow** recognizes that the only way for individual members to excel is for the entire community to thrive. Our Board — with members from both the street and the larger local community — works in a fully transparent way to hear the needs and concerns of the street arts community, and find creative ways to meet those needs and bring dreams to life. **Sidewalk Sideshow is a community of artists dedicated to promoting the arts and specifically to producing live shows.**

About Us

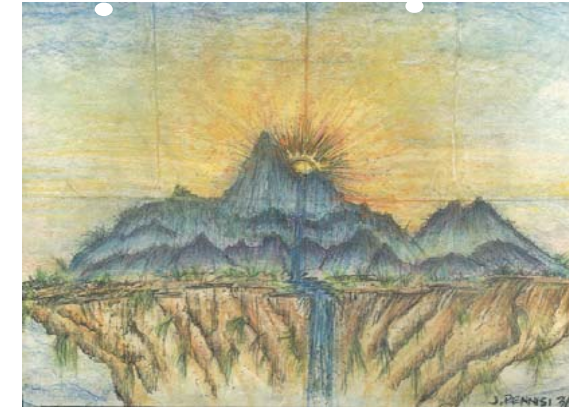

- We share the belief that artistic expression is a common language, a vehicle for healing and connection.
- Sidewalk Sideshow is an independent project of the Marin Interfaith Street Chaplaincy, a ministry of presence in the street community.
- Tax-deductible donations earmarked for the Sidewalk Sideshow go to directly support the artists who need it most.
- In its ten-year history, the Marin Interfaith Street Chaplaincy has piloted other artistic projects such as printing poetry books and holding art and music shows.

What We Do

- We organize public events, providing a platform for all artists and all forms of art.
- We create an accepting, supportive community with an emphasis on marginalized artists.
- We partner with artists to help find means to enrich and nurture their work.
- We publish visual, printed, and audible art for distribution.

Who We Are

- We are a grassroots production and performance venture.
- Artists range from the seasoned professional to raw talent.
- Sidewalk Sideshow Productions steering committee is made up of members from both the street community and the community at large.

We are here to **give a voice** to those who make our tribe so vibrant, but haven't yet had the opportunity to share their talents with the larger community.

Our vision is of a federation of independent artists, collaborating in a nurturing environment, to express their love and compassion through creative expression.

Art should be the antidote to authoritarianism and isolation. **Our goals are simple:** *make art, help artists, and have fun doing it.*
